

Endorsing Organizations

As of 8/20/16

A special thank you to the St. Louis Metro businesses and organizations that have taken the lead on endorsing this important health policy for the St. Louis Metro area. Tobacco21|MO now covers over 750,000 Missourians in 6 cities, and over 60 million Americans nationwide. The policy is expected to save over 2,500 lives of children born in the STL Metro area between 2000 and 2019.
